

# ROOSTER DAYS

EST. 1931

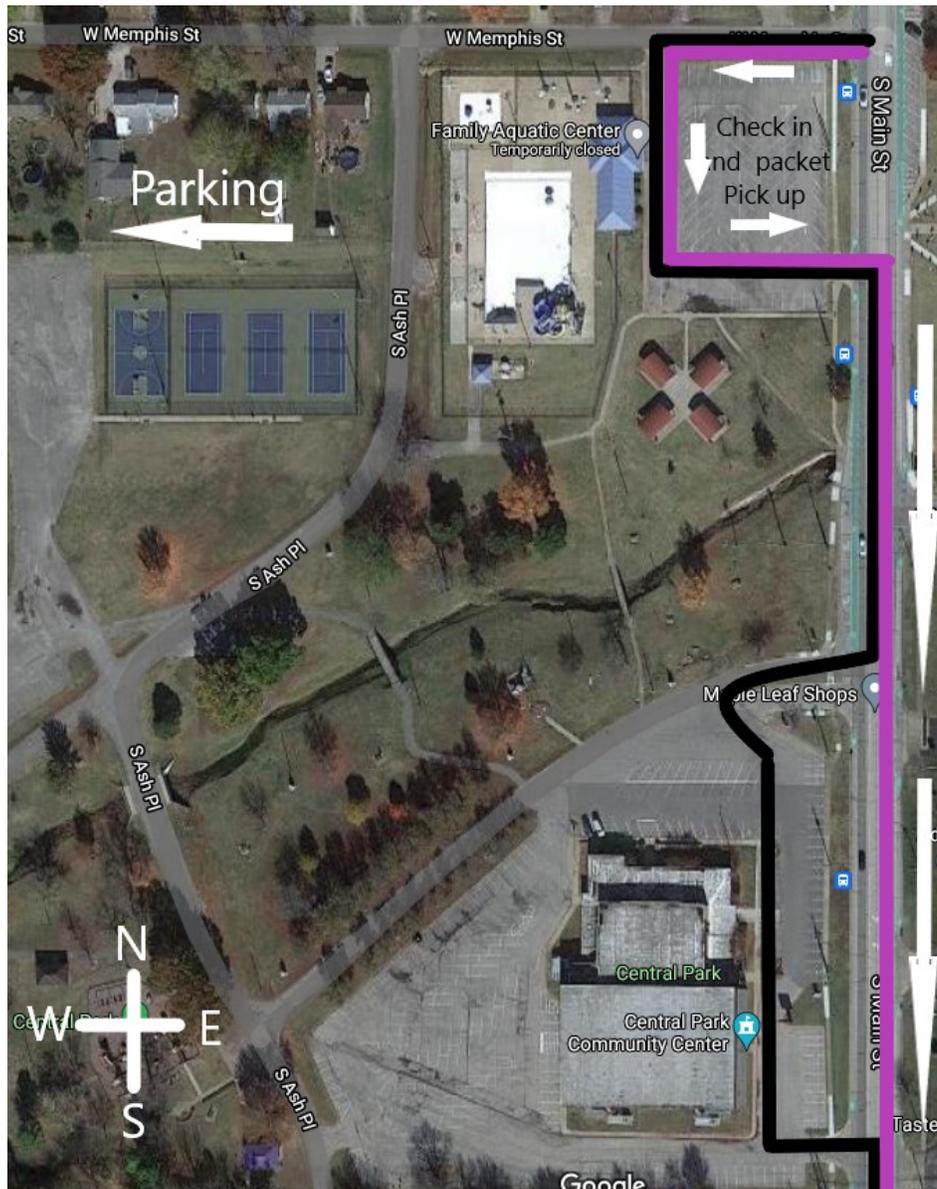

## Vendor Check-in and Unloading instructions

Enter pool parking off of Main to Memphis street. Exit pool parking to Main then South on Main. **Outdoor Vendors follow BLACK line and Indoor vendors follow PURPLE line.**

Outdoor vendors will enter Community Center parking and unload/set up along the EAST side of the building according to included space assignment then exit according to the diagram.

Indoor vendors will stay on Main Street between the road closed barricades and unload from to their designated space in the indoor area. I would recommend bringing a dolly if you have a lot to move. We will have people there to help. When you finish your unload you will exit the closed portion of main street to the South. You cannot unload curbside as in the past since that area is the actual outdoor vendor area this year.

All traffic flow must continue to move to the South during load in and load out. Parking for ALL VENDORS is in the designated parking area behind the pool and near the Tennis courts, Left side of this diagram. YOU MAY NOT GO BACKWARDS THROUGH THE FLOW TO GET BACK TO THE PARKING AREA. You will need to exit the Unload area and loop back around on surface streets to get to parking. The parking area near the tennis courts is the ONLY vendor parking area and the parking passes are only valid for this area.

Your check -in packet will contain additional information about load in/ out, parking pass to be used in the main parking area, your Indoor/ outdoor space(s) numbers and any additional information that we feel would be helpful while you are here at Rooster Days 2022!

You will receive 1 (one) parking pass, if you need additional parking passes they can be purchased for \$10 each at Check in. If you or anyone working your booth doesn't have the pass they will be required to pay to park, each time. The purchased vendor pass is valid for the entire event. Parking attendants WILL NOT allow you to part without a pass or without paying, sorry.

Please remember that your booth must be occupied for the ENTIRE duration of the event and you may not tear down until the event ends at 6pm on Sunday June 12. We will have overnight security on site throughout the event, both indoor and outdoor areas will be secured.

**IMPORTANT: If you are an outdoor vendor and will be working out of a trailer we would encourage you to try to do your set-up on Wednesday evening. This way we can get you set and load the other vendors around your equipment on Thursday morning.**
